

ASLON® PROTECTION MATS

Aslon® Protection mats are specially designed to protect roof coverings during work activities. They prevent direct contact between tools and the roof surface, thereby minimizing damage caused by sharp objects.

The protection mats are versatile and can be used in many applications, making them ideal for placement under scaffolding, ladders, or pallets with building materials. Thanks to their convenient dimensions, they can also be used as a temporary walkway on the roof.

PROTECTION OF ROOF COVERING

The mats are specially designed to protect the roof covering during work activities.

FLOOR PROTECTION

The protective mats prevent damage; they provide the roof covering with the appropriate protection.

EASY TO INSTALL

The protective mats are very user-friendly.

SUSTAINABLE

The mats are made from recycled rubber granulate and are fully recyclable after use.
