

ASLON® ANTI-VIBRATION MATS

The anti-vibration mats can be used in various situations, ranging from workshops to household applications such as under washing machines and fitness equipment.

They offer a range of benefits, such as reducing noise and protecting floors and equipment. The anti-vibration mats are designed as a buffer between vibration sources and surfaces, ensuring the stability of the machine and preventing it from shifting.

The anti-vibration mat is made from high-quality rubber that is resistant to wear and maintains its structure and performance even under heavy loads.

Anti-vibration mats are also available in roll form.

SPECIFICATION

| | |
|------------------|----------------|
| Colour | black |
| Sizes | 600 x 600 mm |
| Thickness | 5 mm tot 20 mm |
