

ASLON® LADDERMAT

The ladder mat is designed to improve safety and stability when using a ladder. The ladder mats are designed for optimal grip and provide a non-slip surface. This greatly reduces the chance of the ladder slipping, significantly lowering the risk of falls and injuries.

In addition to improving user safety, the ladder mat also protects the surface on which the ladder is placed. The ladder mat is very user-friendly and suitable for both indoor and outdoor use. A blend of high-quality rubber types, polymers, and catalysts ensures optimal slip resistance.

SAFE AND TESTED

The open structure creates a larger contact surface with the ground, resulting in an excellent anti-slip coefficient. The laddermat has been tested according to NEN 2484.

Aslon Rubber cannot be held liable for any damage resulting from accidents.

PREVENTS SLIPPING

The ladder mats are designed for optimal grip and provide a non-slip surface.

EASY TO INSTALL

The ladder mat is very user-friendly and suitable for both indoor and outdoor use.

SUSTAINABLE

The ladder mats are made from recycled rubber granulate and are fully recyclable after use.

SPECIFICATION

Colour	black
Sizes	1.000 x 250 mm 1.300 x 310 mm
