

ASLON® MULTIPLAY GRASS TILES

The multiplayer grass tile is a versatile and practical option for playgrounds and play areas. Rubber grass tiles are rubber tiles with a top layer of multiplayer grass. The artificial grass is pressed onto the rubber tiles, combining the advantages of rubber play tiles with the advantages of artificial grass.

They are made of durable rubber material that is able to absorb the impact of falls, creating a safe, fall-dampening floor. In addition, rubber grass tiles also offer excellent slip resistance. This contributes to safety and prevents slipping during play or sports activities.

Grass tiles are available in various colors and thicknesses, allowing them to meet diverse design requirements and play needs. The grass tile can be adapted to the specific play environment and can be installed in playgrounds.

Aslon grass tiles are suitable for sports and play and are tested for fall heights; Head Injury Criterion (HIC) and meet the strictest requirements for fall damping.

FALL-BREAKING

The tiles meet the most strict standards for fall protection in accordance with N1177:2018

SOUND REDUCING

The rubber helps reduce contact noise and vibrations.

SUSTAINABLE

The tiles are made from recycled rubber granules and are fully recyclable after use.

SPECIFICATIONS

Colours	black, red, green and blue > other colours available on request
Dimensions	500 x 500 mm 1.000 x 1.000 mm
Thicknesses	30, 45, 65 and 100 mm
Density	800 kg/m ³
Fall height (HIC)	30 mm - 0,91 meter 45 mm - 1,35 meter 65 mm - 1,85 meter 100 mm - 3,00 meter
