

ASLON® RUBBER PALISADE EDGING

Safety is paramount when installing playgrounds. The rubber palisade is versatile in use, providing a safe demarcation for playgrounds or as a sandbox edging.

They are available in the colors black, red and green and in 2 heights of 40 cm and 60 cm. In addition, the rubber palisades are equipped with a metal tube to anchor them in the ground.

SHOCK ABSORBING

The rubber helps absorb bumps and shocks.

PROTECTION

The rubber edging provides a softer finish for hard edges.

SUSTAINABLE

The palisades are made from recycled rubber granules and are fully recyclable after use.

SPECIFICATIONS
