RUBBER

DesignGRASS

Aslon® DesignGRASS has been specially developed for intensive use. The combination of strong yarns and high density, ensures that the mat is hard-wearing and therefore long-lasting as a sports floor. Unlike other sprintracks, this sprintrack is made with nylon yarns, making it stronger, more wear-resistant and durable.

What sets this sprintrack apart is its unlimited design freedom. Any colour palette and design is possible. Besides the many design possibilities, this sprintrack has also been tested for fire safety. The sprintrack meets standard EN13501-1 with a fire class CFL and smoke class S1.

BENEFITS

FIRE RETARDANT

DesignGRASS has been tested for fire safety and complies with the EN13501-1 standard, achieving a fire class Cfl and smoke class S1. This ensures a safe environment in gyms and fitness areas.

DESIGN FREEDOM

Every design, color palette, and pattern is possible. This allows a gym or fitness area to be tailored to a specific brand style or identity.

DELIVERY TIME

The lead time for these custom-made sprintracks is exceptionally short. They are manufactured and delivered within just 3 weeks.

SUSTAINABLE

Unlike sprintracks made from other materials, this sprintrack is manufactured with nylon yarns, which ensures exceptional strength and durability.

Don't dream it! Design it!

DISCOVER THE POSSIBILITIES

With Aslon® DesignGRASS, the design possibilities are endless. Any design and color can be achieved, from photorealistic prints to striking gradients.

However, not everyone has the need or ability to create a fully custom design while still wanting a unique sprintrack. That's why three options have been developed, ensuring a suitable solution for every situation.

OPTION 1 > CUSTOM MADE

A unique design, without limitations

The Custom Made option offers limitless possibilities. A sprintrack can be fully customized to match a specific brand identity or interior. Whether it's a unique pattern, a photorealistic image or a custom color gradient, anything is possible. This option provides the ultimate freedom to create an exclusive and distinctive design.

OPTION 2 > STANDARD DESIGN WITH LOGO

Personalized and recognizable

For those looking for a recognizable design without the time and cost of a fully custom track, the Standard Design with custom logo is the perfect choice. A pre-designed track is customized with a logo or brand elements, resulting in a professional and unique sprintrack that seamlessly aligns with a brand identity.

OPTION 3 > STANDARD DESIGN

Ready to use, stylish and functional

The Standard Design sprintracks are carefully designed with a sleek and modern appearance, making them suitable for almost any environment. These sprintracks are readily available and provide a stylish and functional solution. A fast, efficient, and distinctive choice, without compromising on quality and aesthetics.

SPECIFICATIONS

Colours: unlimited options

Width: 2 m

Length: up to 30 metres

Option 1 > Custom made

A UNIQUE DESIGN, WITHOUT LIMITATIONS

For those looking for an exclusive and fully customized sprinttrack, the Custom Made option offers endless possibilities. Every design, color, and pattern can be tailored to match a specific brand identity, interior, or training space.

From concept to reality. The process begins with a custom design, incorporating all specific wishes and requirements. Whether it's a striking color gradient, a detailed photorealistic print, or a unique graphic layout, anything is possible. Thanks to advanced production techniques, even the finest details are rendered with precision.

WHAT MAKES A CUSTOM-MADE SPRINTTRACK UNIQUE?

- Unlimited design possibilities – Any pattern, color or layout is possible
- Perfectly aligned with brand identity or interior design
- High-quality finish with durable materials

Option 2 >

Standard design with logo

PERSONALIZED AND RECOGNIZABLE

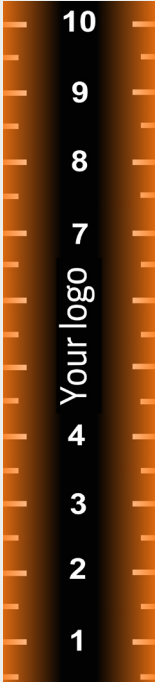

Sometimes, a fully custom design isn't necessary, but a recognizable brand identity is still desired. The Standard Design with logo option allows a pre-designed sprint track to be personalized with a logo or brand elements.

By adding a logo or specific color accents, the sprint track gains a unique and professional appearance. This not only strengthens branding but also ensures that the training space is instantly recognizable.

We offer a standard color palette, but brand or corporate colors are also possible.

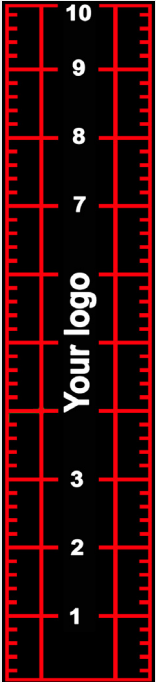

WE HAVE DEVELOPED FOUR STANDARD SPRINTTRACK DESIGNS THAT CAN BE EASILY CUSTOMIZED.

Option 3 > Standard design

A STANDARD DESIGN WITH A UNIQUE TWIST

For those looking for a high-quality and unique sprintrack, the Standard Design option is the perfect choice. These designs are readily available and carefully crafted to ensure a stylish and functional appearance.

Many sprintracks on the market look alike and often consist of only two colors. Our designs break this trend with unique patterns and carefully selected color combinations. This not only creates a dynamic and professional look but also ensures a distinctive character that fits perfectly in any training space.

We offer a standard color palette, but brand or corporate colors are also possible.

DESIGN 1

The gradient along the edges gives a stylish and robust look. This design provides a classic and luxurious appearance to the sprintrack.

DESIGN 2

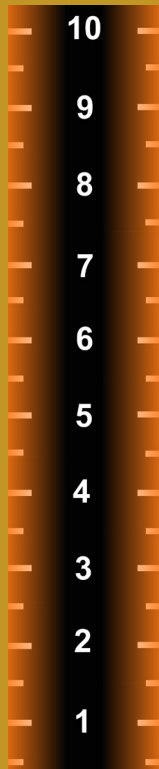

This design has a sleek and minimalist look. It appears professional and modern, making it ideal for a clean training environment.

DESIGN 3

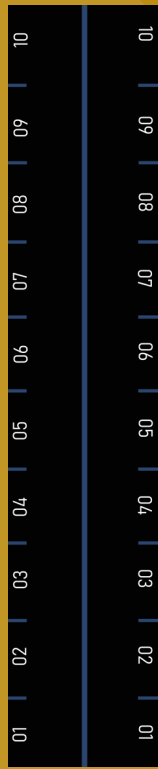

The colored lines and numbers contrast with the black background. It features a detailed ruler-like look with extra markings, giving it a technical and precise appearance.

DESIGN 4

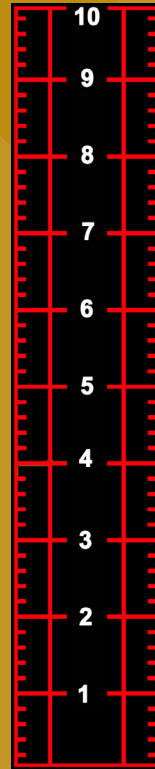

This design stands out with its wide colored edges and large, clear numbers. It offers multiple branding opportunities and exudes a sporty and powerful look.
