

ASLON® H-MATS

Aslon® H-mats provide a soft and comfortable surface in and around stables. They are wear-resistant, water-permeable and made of recycled rubber granulate and provide noise reduction.

The natural anti-slip structure prevents slipping and provides a resilient surface for the horse's well-being.

The H-mats are ideal as a walkway in stables or on the yard and as a safe surface in treatment rooms. They can be used in training mills and can be combined with concrete pavers. Due to its profile, the H-mat can be placed quickly, easily and seamlessly.

ANTI-SLIP

The natural anti-slip texture prevents slipping and provides a resilient surface that supports the horse's well-being.

SHOCK-ABSORBING

They have shock-absorbing properties, reducing the impact on horses' joints.

SUSTAINABLE

The H-mats are made from recycled rubber granulate and are fully recyclable after use.
