Aslon[®] H-pavers

The Aslon H-clinker can be applied on any hard surface. Due to the H-profile, the bricks can be placed separately.

The Aslon H-clinker is ideal for garden paths, balconies and animal stables. Rainwater can be drained through the channels on the underside of the clinkers. Aslon H-clinkers are available in the colors black, red, green, grey and sand. The H-clinkers consist of recycled rubber granulate, colorant and polyurethane.

Aslon H-clinkers for animal stables

Stables and outdoor areas are usually made of concrete. The harder and/or slippery surface, can easily give cause for injury. A rubber floor can considerably reduce the risks. Water and urine can be drained through the channels on the underside of the clinkers.

Specifications:

Colours:
black, red, green
grey en sand

Sizes:
200 x 165 x 30 mm

Benefits:

- ✓ insulating
- ✓ sound absorbing
- ✓ comfortable
- ✓ elastic
