

# Aslon® Rubber on roll

Rubber on a roll is used in gyms and creates a comfortable floor. The use of rolls keeps floor seams to a minimum. Rubber on a roll can be supplied in a density of 730 kg/m<sup>3</sup>, 930 kg/m<sup>3</sup> or 1,000 kg/m<sup>3</sup>. Rubber on a roll is available in black, or with 18% EPDM, in the colours grey, red, green, yellow and blue. Other colours and percentages are available on request.

Play sport safely with Aslon rubber  
Aslon rubber on a roll is sound-absorbing and comfortable to sport on. Rubber on a roll supports the user and creates an anti-slip supporting surface. Rubber on a roll is regularly chosen for use on larger surfaces, because it's quicker to lay than tiles or mats.

The rolls are manufactured from cylinders which are cut and peeled into the required thicknesses and lengths. We recommend a minimum thickness of five millimetres.

### Specifications:

- Colours: black and black with 10% EPDM  
EPDM colours: grey, red green yellow and blue
- Width: 1.050 mm and 1.250 mm
- Length: 3 mm to 20 mm
- Density: 730 kg/m<sup>3</sup>, 930 kg/m<sup>3</sup> and 1.000 kg/m<sup>3</sup>

### Benefits:

- ✓ Provides impact protection
- ✓ Sound-absorbing
- ✓ Low-maintenance
- ✓ Hard-wearing
- ✓ 100% recyclable
- ✓ Easy to lay
- ✓ Very few seams
