

Aslon® sprintrack tiles

Aslon® sprintrack tiles are specially developed for intensive use. The tiles are available as a SBR tile or multiplay tile. Multiplay tiles are rubber tiles with a top layer of multiplay artificial grass. SBR tiles are available in standard granulate 1-3 mm and fine granulate 0.7-1 mm and a density of 900 kg/m³ or 1,000 kg/m³. The numbers, symbols and multiplay artificial grass are deeply embedded in the rubber. The markings are no prints or stickers and therefore permanently embedded in the rubber. This makes our sprintracks tiles extremely hard wearing and durable. The tiles are easy to combine with our total fitness range such as fitness tiles or artificial grass on a roll.

Colors: on demand

Dimensions: 1.000 x 1.000 mm | 500 x 500 mm

Thicknesses: 15 mm, 20 mm, 25 mm, 30 mm,
40 mm and 45 mm

Density: 900 kg/m³ | 1.000 kg/m³

Can be combined with other fitness tiles |
Easy to lay | Sound absorbing | Low maintenance

Aslon Rubber is aware that the welfare of our planet deserves all of our attention. The following generations must be able to live in a healthy environment. For this reason, we make all of our products out of recycled granulated rubber obtained from items such as scrap car tyres. This enables us to preserve valuable raw materials and minimise energy consumption and the emission of harmful substances.
