

## Aslon® indoor fitness tile

Aslon® fitness tiles are sound absorbing and comfortable for athletes. The tiles protect both user, sports equipment and the gymfloor. Rubber tiles can be used in many different sportareas such as health clubs and gyms. They are available in standard granulate 1-3 mm and fine granulate 0.7-1 mm and a density of 900 kg/m<sup>3</sup> or 1.000 kg/m<sup>3</sup>. The major advantage of fine granulate tiles is they are easier to clean and the floor have a nice appearance. The tiles can be delivered with a flat underside or with a studded structure, depending on the application and the surface requirements.

Colors: black, red, green and grey

Dimensions: 1.000 x 1.000 mm | 500 x 500 mm

Thicknesses: 15 mm, 20 mm, 25 mm, 30 mm,  
40 mm and 45 mm

Density: 900 kg/m<sup>3</sup> | 1.000 kg/m<sup>3</sup>

**Impact protection | Easy to lay**  
**Sound absorbing | Low maintenance**

Aslon Rubber is aware that the welfare of our planet deserves all of our attention. The following generations must be able to live in a healthy environment. For this reason, we make all of our products out of recycled granulated rubber obtained from items such as scrap car tyres. This enables us to preserve valuable raw materials and minimise energy consumption and the emission of harmful substances.
