Aslon® sprintrack

Aslon® Sprintracks are specially developed for intensive use. The combination of short fiber and a high density in the tracks results in a hard wearing sport floor and a comfortable and durable surface for the sport fanatics. In our assortment we have a standard sprintrack with lines and a sprintrack with START 1-10.

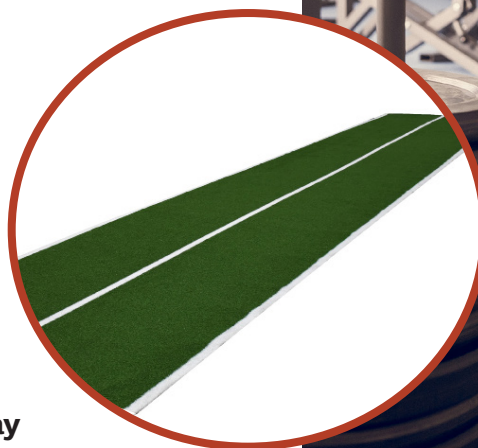

We are able to supply customized sprintracks. By incorporating a logo or design in artificial grass, the interior of a health club or gym can be in your own style. Logos and designs are tufted into artificial grass. This makes our sprintracks extremely hard wearing and durable.

Colors: sprintrack with lines: green, blue, red and black
sprintrack design: green and black
sprintrack custom made: on demand

Width: 2 m | 4 m

Length: 10 m | 15 m | 25 m

High density mat | Few seams | Easy to lay
Low-maintenance | Colours are easy to combine

Aslon Rubber is aware that the welfare of our planet deserves all of our attention. The following generations must be able to live in a healthy environment. For this reason, we make all of our products out of recycled granulated rubber obtained from items such as scrap car tyres. This enables us to preserve valuable raw materials and minimise energy consumption and the emission of harmful substances.
